

ATT Mobile-APP

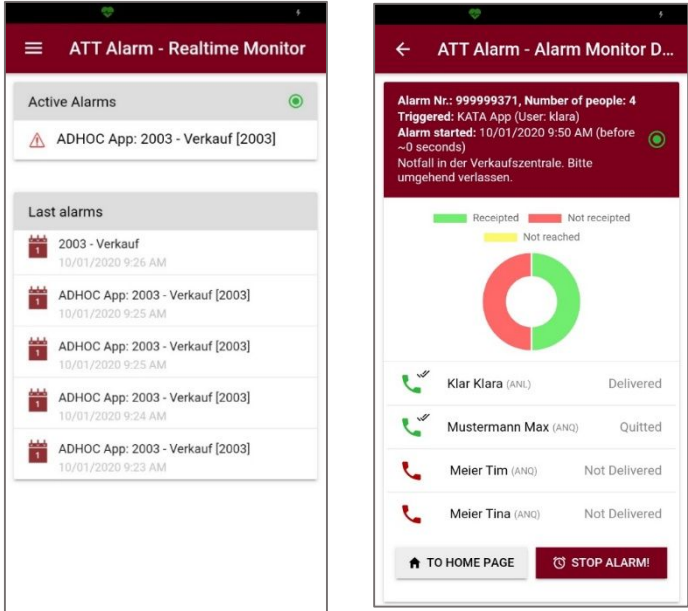

Part 4: Realtime Monitor

Version 23.02

1 Reliable alerting with the ATT Mobile App

Nowadays, fixed workstations at a single location are becoming increasingly scarce and a certain degree of flexibility is required. Our ATT alerting solution is therefore oriented on sending alarms not only via PC workstations, but also via mobile devices such as smartphones.

Description	Illustration
<p>In the fourth part of our series, we will show you the functions of the "Real-Time Monitor" module.</p>	 <p>The screenshot shows the ATT AG mobile application interface. At the top, there is a dark red header with a hamburger menu icon on the left and the text "ATT AG - The Alarmserver". Below the header, there are four large, square buttons arranged in a 2x2 grid. The top-left button features a bell icon and the text "Alarme". The top-right button features a hand with a signal icon and the text "KATA". The bottom-left button features a calendar icon with the number "1" and the text "Log In/Out". The bottom-right button features an eye icon and the text "Realtime Monitor".</p>

Beschreibung	Abbildung
<p>The Real-Time Monitor module enables you to query alarms in real time and monitor them. You can track individual users and query the current status. A list of all users including their status such as "sent", "acknowledged", "not available" and "rejected" ensures that you can get a quick overview of all events.</p> <p>Thanks to this module, you also benefit from the possibility of ending any pending alarms at an early stage.</p>	 <p>The left screenshot, titled 'ATT Alarm - Realtime Monitor', displays a list of active and last alarms. The active alarm is 'ADHOC App: 2003 - Verkauf [2003]'. The last alarms list includes several entries for '2003 - Verkauf' and 'ADHOC App: 2003 - Verkauf [2003]' with timestamps from 10/01/2020 9:24 AM to 9:26 AM.</p> <p>The right screenshot, titled 'ATT Alarm - Alarm Monitor D...', shows details for Alarm Nr.: 999999371, triggered by KATA App (User: Klara) at 10/01/2020 9:50 AM. It features a pie chart showing 2 'Not received' (red) and 2 'Received' (green) statuses. Below the chart, a list of users shows their status: Klar Klara (ANI) - Delivered, Mustermann Max (ANQ) - Quitted, Meier Tim (ANQ) - Not Delivered, and Meier Tina (ANQ) - Not Delivered. At the bottom, there are buttons for 'TO HOME PAGE' and 'STOP ALARM!'.</p>

Features

- Monitor current alarms
- Status of the subscriber
- End the alarm at an early stage
