

ATT Mobile-APP

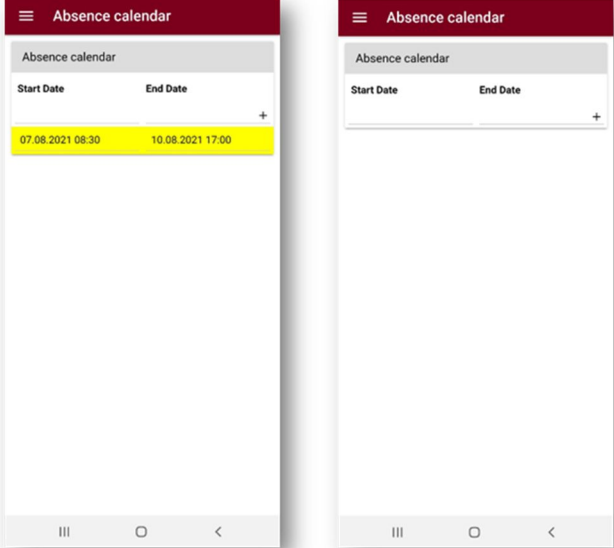

Part 5: Absence Calendar

Version 23.02

1 Reliable alerting with the ATT Mobile App

In today's age, fixed, location-bound workplaces are increasingly rare and a certain flexibility is required. For this purpose, our ATT alerting solution relies not only on alerting PC workstations, but also on mobile devices such as smartphones.

Description	Illustration
<p>In the fifth part of our series, we will show you how the module works.</p>	

Description	Illustration
<p>With the absence calendar module, users can choose whether to receive alerts or not, anywhere, at any time.</p> <p>You can select this directly in the app and thus report absent. Especially suitable for vacations and days off.</p>	

Features

- Simplified logout from the alarm server at the touch of a button
- Overview of your absences
